

**АСТРОНОМСКА СТАНИЦА НА ВИДОЈЕВИЦИ**  
**1.9.2010.**

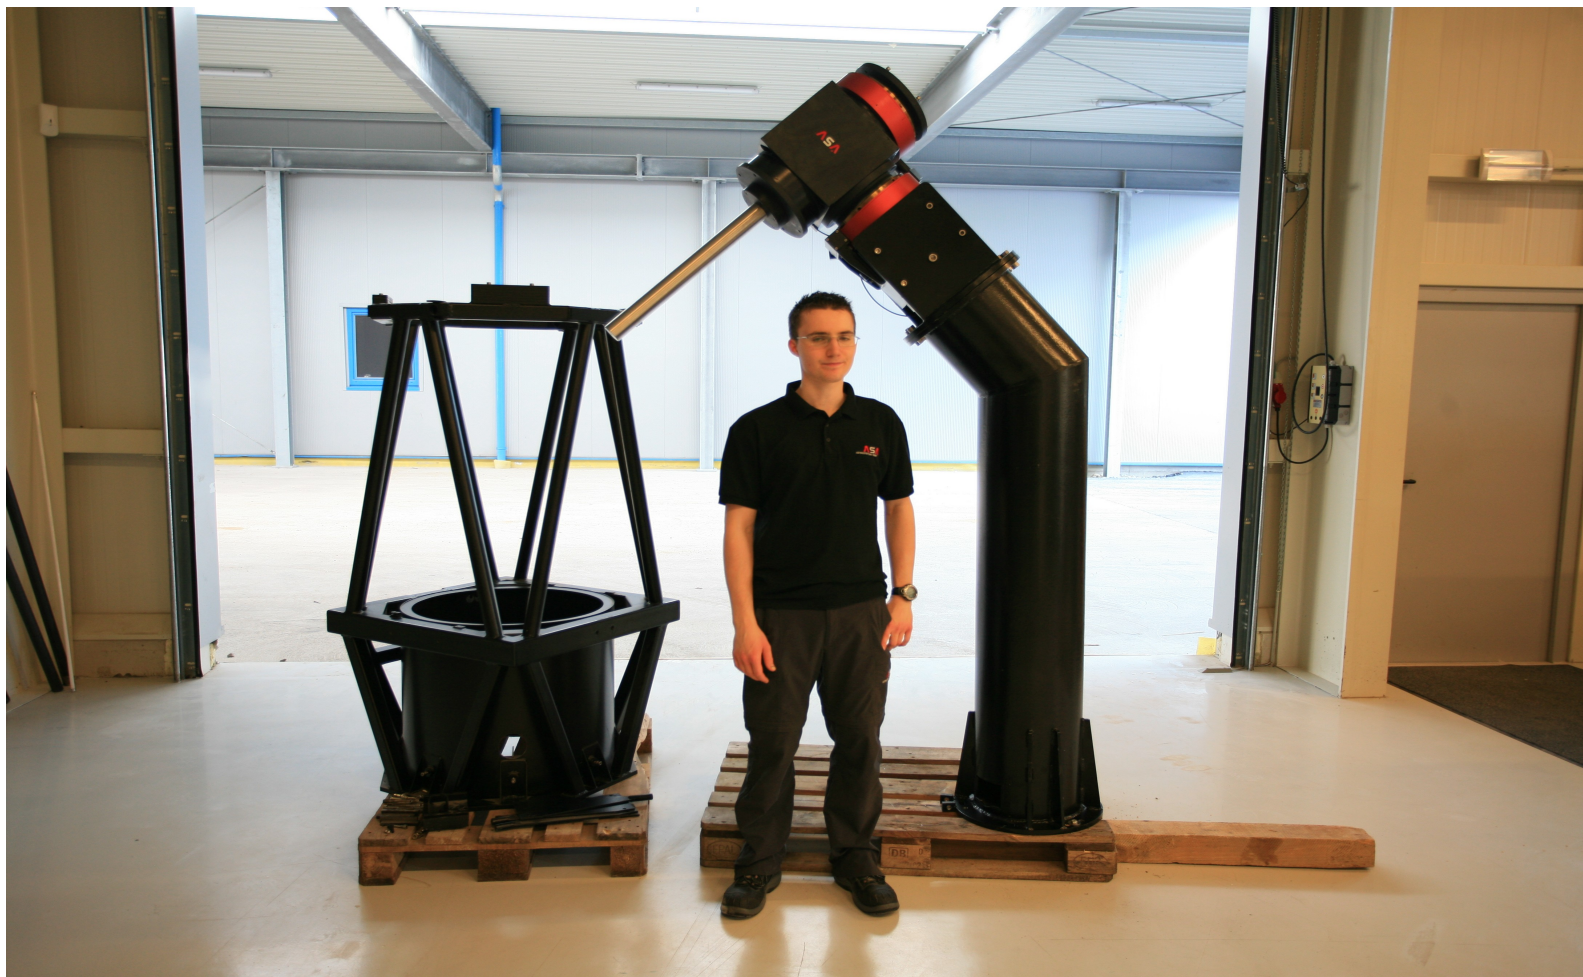

# Главна зграда и подстаница за снабдевање водом

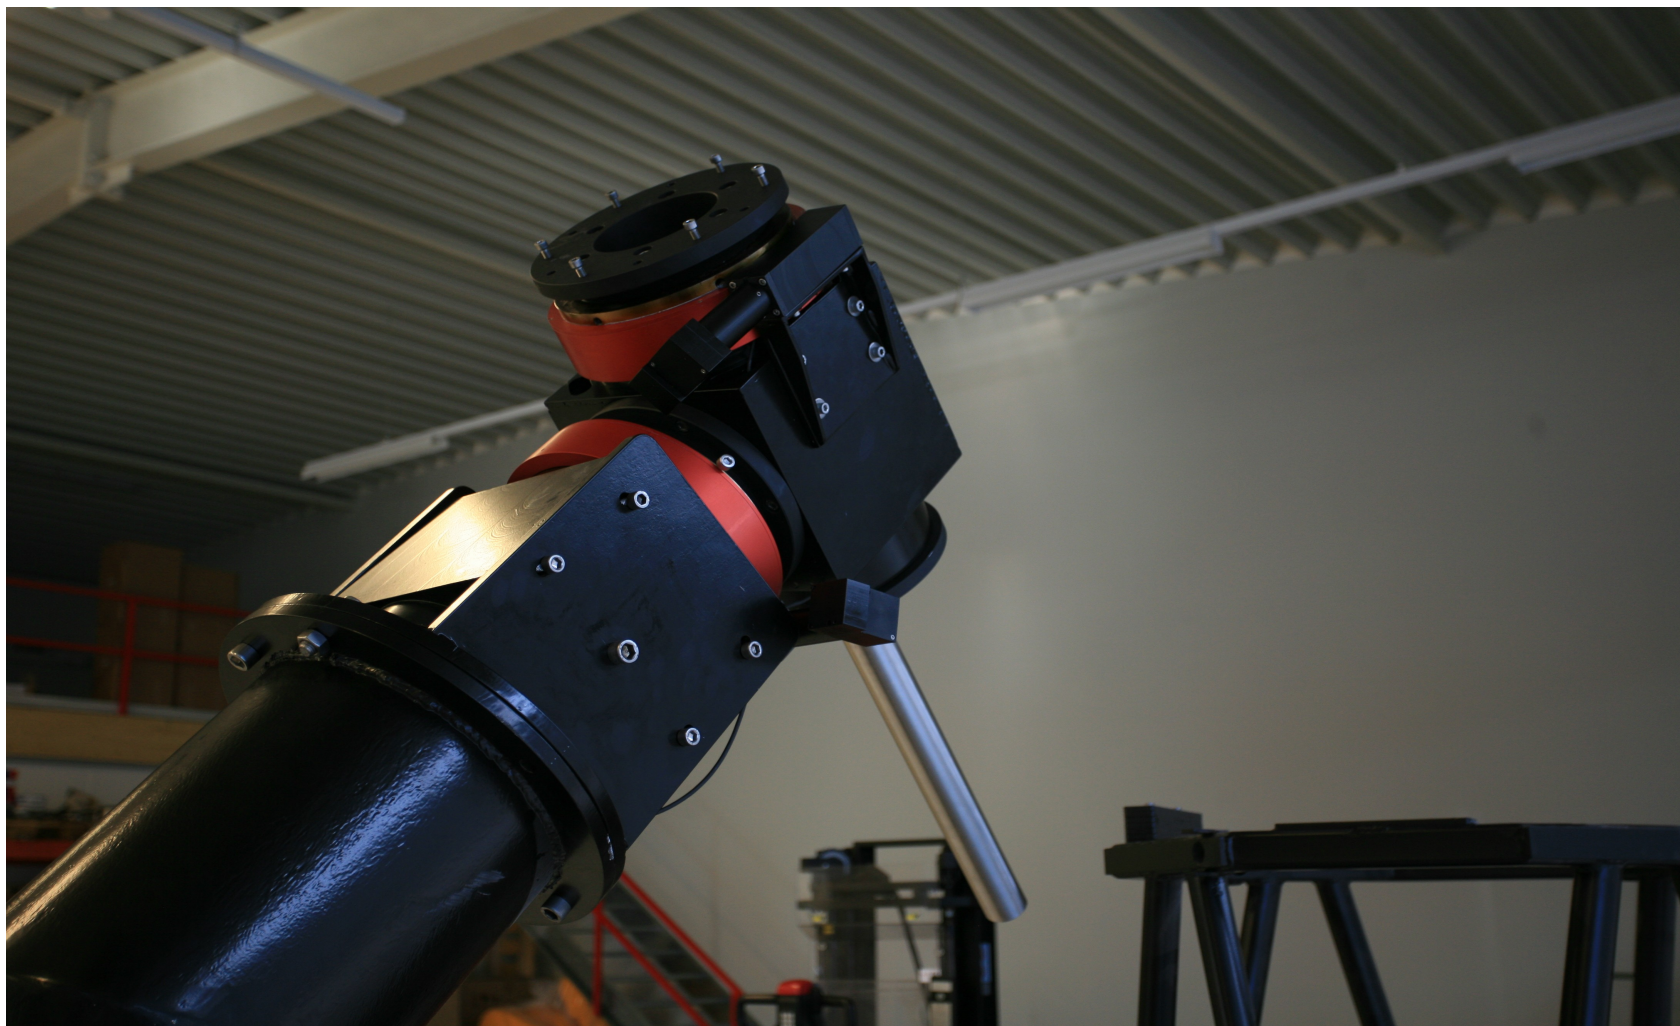

# Павильон 60-см телескопа

# Teleskop

# Teleskop

# Ситуација

- У току технички пријем објеката.
- Предмер ситних оправки.
- Употребна дозвола.
- Стални прикључак за напајање електричном енергијом.
- Испорука делова за телескоп (замена).
- У току набавка две аутоматске камере и метеоролошке станице за одређивање и праћење промена астроклиматских услова.
- Набавка намештаја.

# Belissima, WP1

- WORK PACKAGE NUMBER: WP1
- START DATE OF STARTING EVENT: Month 1
- Work package title: Preparations and reinforcement of AOB
- Activity type: SUPP
- Participant number: 1
- Participant short name: AOB
- Person months per participant: 75
- Objectives:

Reinforcement of the scientific potential of AOB (and, therefore, Serbian astronomical and space sciences) through increase of both width and depth of its overall research activities, both observational and theoretical, as a consequence of "brain gain". This will be operational on several levels in both theoretical and observational aspects of envisioned future research activity.

1.1. During the first year of implementation, the procedure for increasing and improving human resources of AOB will take place in parallel with activities to be described in other Work Packages.

1.2. During the first year of implementation of BELISSIMA, **two experienced researchers** will be chosen from the list of candidates, to whom would be offered permanent positions beyond project life time and leadership in conducting scientific projects. This will reinforce AOB staff in long terms.

1.3. A training plan for several AOB employees, under the supervision of the Management Board, aiming at the most efficient developing of skills necessary for the work with the new OE.

1.4. During the second year of the implementation, existing technical personnel will be trained for testing and maintaining specific OE. Plans for physical presence both at the manufacturing site and during installation and first activities on the Vidojevica observing site will be made.

1.5. Steps will be undertaken in the entire course of this project to ensure that the hired experienced researchers remain active force in AOB and Serbian science in general. Notably, they will be offered permanent positions at AOB, coupled with leadership/PI status in national and/or future European FP projects.

# Средства

- WP1: Preparations and reinforcement of AOB
- Hiring and employing: 244 800 Eur
- 2 experienced researchers on 3-year period, total cost 244800 Eur
- (cost per person is 40800 Eur per year).

# АКТИВНОСТИ

- Милан Богосављевић ангажован почев од 15. јула 2010. године.
- Андреј Месингер ће се до краја ове године изјаснити да ли прихвата ангажман почев од 1. јула 2011. године.
- Мирослав Мићић ће бити ангажован почев од 1. априла 2011. године, у трајању које зависи од ангажовања АМ.
